

Innovation and therapy at your doorstep

activeedge
PHYSIOTHERAPY

Unique, personalised home-based physiotherapy for meaningful recovery of independence.

Our services

Neurological physiotherapy

Focussing on the recovery of movement and function after injury to the central nervous and/or neuromuscular systems.

Respiratory physiotherapy

Focussing on optimal functioning of the respiratory system.

Minimising and preventing pneumonia, reversing lung collapse, and optimising lung function are just some of the ways we support people in our community. We also have our own cough assist device available for our clients.

Aquatic physiotherapy and gym programs

We visit our clients in many settings to such as the local pool or gym where we can assist with improvements in strength, agility and mobility, as well as enhance mental wellbeing.

Wheelchairs and positioning

Prescribing and modifying manual wheelchairs, power wheelchairs, cushions, back supports and bed/seating systems.

Our values

BALANCE
A feeling of safety with no surprises

EMPOWERMENT
Inspiring our clients to be the most independent version of themselves

UNITY
We are inclusive, keeping open hearts and open minds

IMPACT
Collaborating to set meaningful goals and track momentum over time

EMPATHY
A problem shared is a problem halved

Our team

We are an experienced team of mobile physiotherapists with a unique depth of knowledge and skills. Together, we love empowering our clients living with disabilities to achieve their goals and make a positive impact on their lives. Our team are trained to thoroughly assess all of a person's impairments and how they interact in every facet of their life.
